SPACES & DESIGN

Nestled within the vibrant core of the 'City of Joy,' The Peach Club offers a delightful retreat in soothing shades of peach. This reimagined communal space, designed for five families in a condominium, redefines shared living by merging relaxation and functionality. Here, design excellence meets the needs of diverse age groups, crafting a welcoming haven.

Spanning 4,500 sq. ft., The Peach Club was conceived as a multi-functional sanctuary. It harmonizes the residents' desires, blending a club-like ambiance with areas for leisure, fitness, and entertainment. The design integrates modern simplicity with curated comfort, ensuring every space invites relaxation.

Upon entering, visitors are welcomed by a broad passage, carefully designed to lead them through the club. The space is divided into distinct zones, each serving a purpose. On the left, the passage leads to a communal meeting room and a fully equipped gym with adjoining locker areas. Beyond the gym, near the swimming pool, a luxurious spa beckons, offering tranquil treatments. On the right, a versatile kitchen connects seamlessly to a games hall, fostering connection. Toward the rear, a cozy lounge area and a bar.

The design theme seamlessly blends modern aesthetics with comfort. Central to this transformation are graceful arches, guiding the eye and fostering a sense of continuity. These arches, tailored for the lower ceilings, create a cohesive visual motif, while curved edges cleverly enhance the sense of space.

The signature Peach hue radiates warmth and fosters community. Mosaic inlays, metal accents, light ash wood, and terrazzo tiles create a harmonious interplay of textures and tones. The light furnishings enhance the airy atmosphere, while glass blocks invite natural light, adding brightness and comfort.

The crowning glory of the design is Pantone's 2024 color, Peach, which unifies the space and adds a memorable charm. The Peach Club is more than a space—it's a testament to inclusive design, offering residents a place to connect and create lasting memories in an environment that seamlessly blends modernity with warmth.
